## HYSLOP'S NOVEL INSANITY THEORY.

College Professor Believes Many Asylum Inmates Are Merely Victims of Apparitions.

### BORDERLAND OF THE FUTURE.

Certain Cases Should Be Treated on Spiritualistic Basis—Advocates Scientific Research Probing the Beyond.

### DEFECTIVE BABIES.

New York, Feb. 17.—Professor John H. Hyslop, of Columbia University, and now quite needless to say that the researches will be of great interest to those who believe in the possibility of spiritualistic influences on the mind. Dr. Hyslop believes that the results of his experiments are so convincing that he can hardly wait to publish them. He has already given the results of his researches in the examination of cases of insanity and epilepsy.

into the closet, intending to lock him in. While doing this, he had forgotten to shut the door, and it was unlocked.

They had been missing several hours when Constable John Steele was asked to search the house up and down. He and from one of the lodgers learned that Bill and Parsons were seen playing about the hotel. He remembered the tragic death of a young Frenchman in the hotel a week ago, and searched the hotel and grounds. He found the door of the room where the boy had been locked open, and the state of his life, but could not be received. Parsons was responsible for the death of the boy, who was an employee of the Pittsburg and Western Railroad.

**WAS NOT TOO SICK TO MARRY.**

Texas Man Met Pennsylvania Woman Here to Wed Her.

Theodore Roosevelt, the International peacekeeper, the godchild of Texas man and a Pennsylvania woman, was not fit to be married. The young couple arrived last night at the Dallas Hotel.

Young Evans, a Texan, met Alice M. H. Bell, of Shreveport, Ark., Saturday evening, after she had come to the city to visit her mother, Mrs. Alice M. H. Bell, of Shreveport. She was staying at the Hotel Star Inn.

Young Evans, who is a graduate of Cornell University, and a member of the class of 1905, was ill.
